SUMMARY

Seeking a challenging role as a Frontend Developer where I can leverage my proficiency in HTML, CSS, JavaScript, and modern frameworks to create immersive and user-friendly web experiences. With a passion for staying abreast of emerging technologies and trends, I am committed to contributing positively to a dynamic team while continually enhancing my expertise in frontend development.

EXPERIENCE

Front End Developer

ZealtechBD

08/2022 - Present Palash Tower, Shahjadpur, Badda, Bangladesh.

- Collaborated with design and backend teams to develop and implement frontend solutions for various web applications.
- Enhanced user experience by implementing UI/UX improvements based on feedback and industry best practices.
- Developed responsive and cross-browser compatible web pages to ensure consistency across different devices and platforms.
- Integrated frontend components with backend APIs to fetch and display dynamic content.
- Assisted in the optimization of website performance through code refactoring and asset optimization techniques.
- Participated in code reviews and provided constructive feedback to ensure code quality and maintainability.
- Stayed updated with the latest frontend technologies and trends to continuously improve skills and contribute innovative ideas to the team.

PROJECT

E-commerce Website

<https://ecommerce.zealtechweb.com/>

- Spearheaded the implementation of innovative frontend features including dynamic product carousels, interactive galleries, and streamlined checkout processes, amplifying user engagement and driving revenue growth.
- Ensured flawless cross-browser compatibility through rigorous testing and optimization, guaranteeing a consistent and enjoyable browsing experience for all users, ultimately boosting conversion rates and customer satisfaction.

Point of Sale (POS)

<https://demo.zealtechpos.com> (User Name: 'admin', Password: 'password')

- Took charge of frontend development for the POS application, focusing on crafting an intuitive and user-friendly interface. Implemented clear navigation structures, intuitive controls, and visually appealing layouts to streamline the sales process and enhance user experience.
- Ensured seamless usability across various devices by implementing responsive design principles. Utilized CSS media queries and flexible layout techniques to adapt the interface to different screen sizes, providing consistent functionality and accessibility for users on desktops, tablets, and mobile devices.

Blog Website

<https://muslimsoul.org/>

- Envisioned and executed captivating frontend designs to elevate user engagement on the blog website. Employed visually appealing layouts, intuitive navigation, and interactive elements to captivate visitors' attention and encourage exploration of content, resulting in increased time spent on the site and improved reader retention.
